*EMPOWERING HEALTHCARE*

Broken leg

Suggested facilities

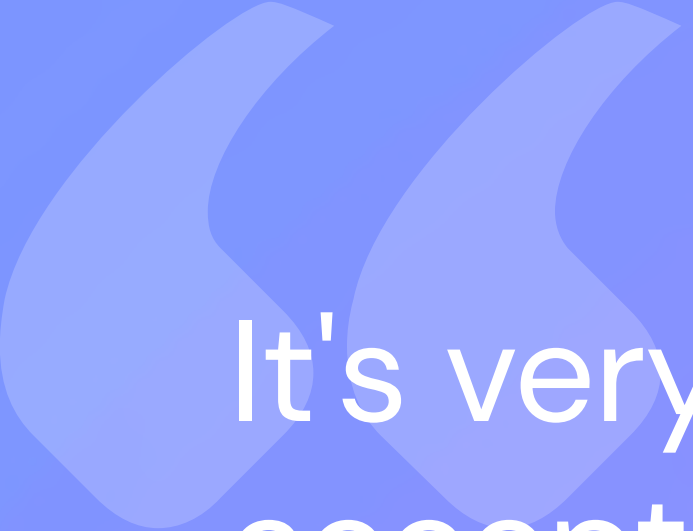

Facility Name	Wait Time	Distance	Services	Average Cost
ST. JOHN'S HOSPITAL	4 minute wait	1.2 miles	• radiology ✓ • orthopedist ✓	\$127.44
WELLNOW WALK-IN	20 min wait	0.2 miles	• radiology ✓	\$255.67

Go

## MEET JEFF

**Jeff just sprained his ankle and needs help. However, he is worried about how much an ER may cost because he is uninsured.**

It's very hard to find out if a provider accepts my insurance, and how much my insurance will even cover. **There is no price transparency.**

JEFF FREIDMAN

FREELANCE GRAPHIC DESIGNER

SOLUTION

We break down complex medical care information to help you make clear healthcare decisions.

Broken leg

Suggested facilities

Facility Name	Wait Time	Distance	Services	Average Cost
ST. JOHN'S HOSPITAL	4 minute wait	1.2 miles	• radiology ✓ • orthopedist ✓	\$127.44
WELLNOW WALK-IN	20 min wait	0.2 miles	• radiology ✓	\$255.67

## PROBLEM STATEMENT

**There is a lack of cost clarity in healthcare options.**

## WHY NOW?

**The U.S. recently mandated hospitals and insurance companies report cost data.**

## SOLUTION

# Product features

### Efficiency

Our **visual map** shows nearby care facilities and can display cost of care, distance, wait-time, quality, reviews, and more.

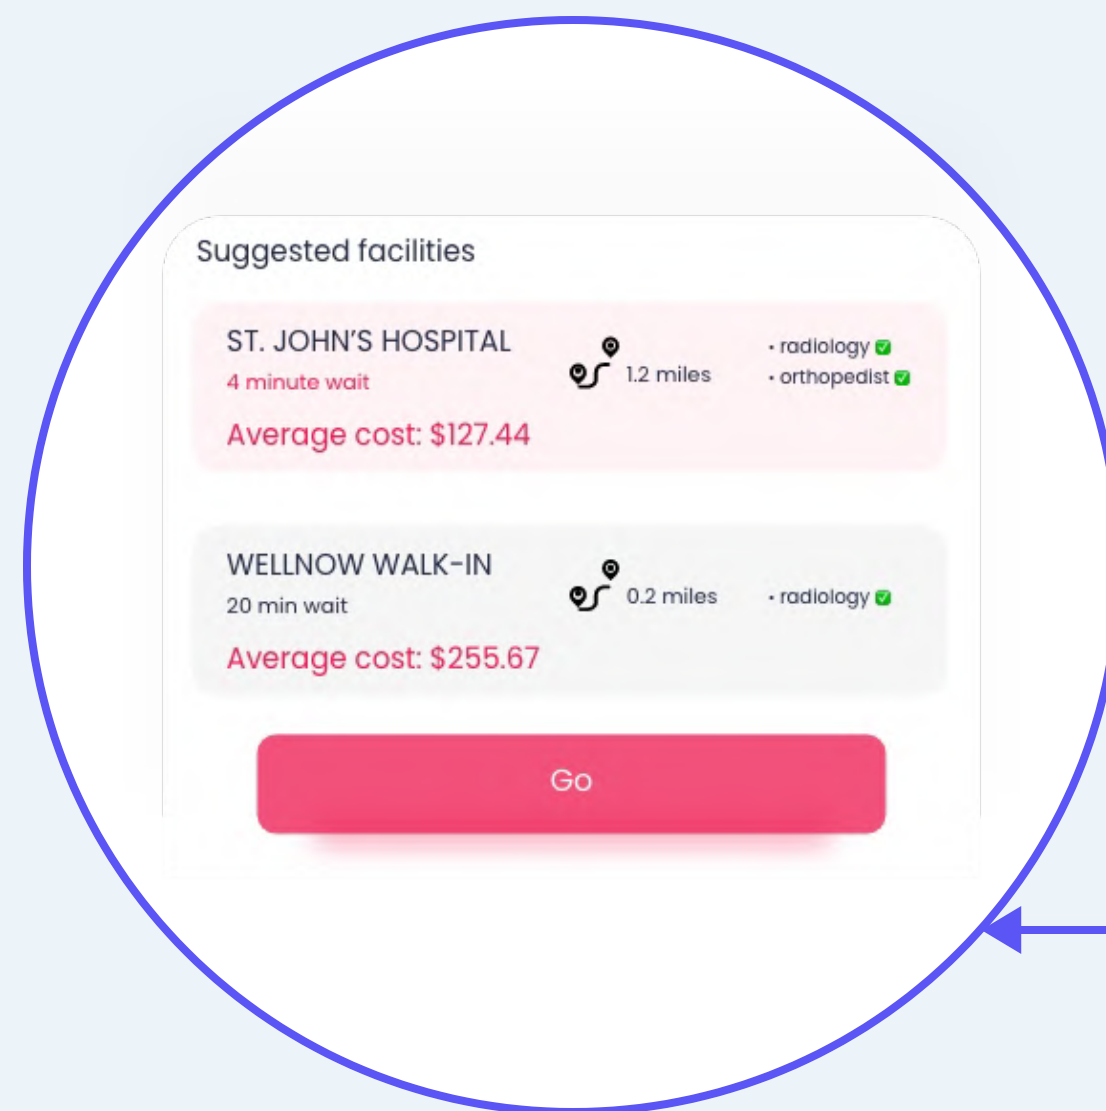

### Transparency

We **estimate the cost of care for your particular need**, whether or not you are insured.

### Intelligence

Our recommender system **suggests the best options for your need**. And our clear comparison tools allow you to compare different facilities and doctors.

## USER EXPERIENCE

**Jeff just sprained his ankle and needs help. However, he is worried about how much an ER may cost because he is uninsured.**

### Step One

Jeff opens Kur and types in "sprained ankle".

### Step Two

Our map shows open healthcare facilities in the area that may fit her needs.

### Step Three

Jeff wants to compare the estimated cost of St. John's Hospital and the WellNow. He uses Kur's quick comparison tool.

### Step Four

Jeff is able to quickly decide on an affordable option without sacrificing quality.

TEAM

# Kur's team

- OPTIMIZATION

## BUSINESS MODEL

We aim to make this application **free to all users.**

Revenue sources	Costs
Advertisement	API usage
Paid-partnerships	Web hosting
Care facility sponsorship	Personnel

## MARKET OPPORTUNITY

### Total Addressable Market (TAM)

329.5 million people. Everyone deserves transparent healthcare options.

### Serviceable Addressable Market (SAM)

280 million people use websites and/or smartphones.

### Initial Target Market

There are 57 million freelancers as of 2021. Of those, 40.1% are uninsured.

### Market Share

With a penetration rate of 5%, we will initially be targeting 1 million uninsured freelancers who are active on web apps such as Fiverr, Upwork, etc.

## GO-TO-MARKET

# Our early adopters are uninsured freelancers.

These freelancers, small business owners, and those in the gig-economy are most likely to be uninsured. We first plan on advertising at schools and universities, freelancer websites, social service agencies, and to small businesses to reach this group.

### SOCIAL CHANNELS

### REFERRALS

### WORD OF MOUTH

### ADVERTISING

### PARTNERSHIPS

### PR & MEDIA

## COMPETITION

There is currently no platform that **clearly** shows the **cost** of healthcare.
